Support

Support for this plug-in is ONLY available at <http://www.keal.me.uk>

Installation

This plugin should be installed in the usual way using the e107 plug-in manager. It has been tested with version 7. I can make no guarantee that it will work with any other version of e107.

Drop the folder in to your plugins directory and use plugin manager to install it. If you want to make the menu visible (it just contains a shortcut) go into menus and activate it. Do'nt make it visible to everybody or guests because they won't be able to use it.

Head admin (account number 1) can not use this plugin to change their password.
